to enter more fully into the manufac-ture of all kinds of carriages, the enter-prising firm of Messrs. Trobe & Bodleys have for some time been engaged in erecting a building for that purpose, on the corner of Fourth and Clay streets, adjoining the wagon mannfac-tory of Mesars. J. Bodley & Son. The building is of brick, in size 80 by 80 bending is of order, feet, strong and substantial, built most-ly of material formerly in the old East Wheeling pork house. The building is now about done, and hands are already at work in it. Just as soon as possible

at work in it. Just as soon as possible
the whole house will be finished, and a
full set of hands set to work at manufacturing all kinds of carriages.
The work of the firm of Messrs. J.
Bodley & Sou (now in the new firm) has
long been before the public, quite an
amount of it having been furnished
to the Gevernment during the war.—
Their reputations as first class manufacturers, combined with the long
manufacturing experience of Mr. Trobe,
will be a sufficient warranty to dealers
of the good quality of the articles of
their manufacture offered for sale.

Their work will soon be extensively
in the market, and they will not be
slow, we think, to improve every
opening offered them by the trade.

A Fine Building.—The building now

A FINE BUILDING. -The building now being erected by Mr. Samuell Ott, of this city, on the east side of Main street, deep and 66 feet from. There will be two rooms on the first floor, one of which will be occupied by the wholeasle and retail hardware store of Messrs.
Ott, Son & Co., and the other by Messrs.
Laughlins & Bushfield, wholesale and retail druggists—the latter named firm using the down street room. The upper stories will be used by the respective firms—Messers. Laughlins & Bushfield designing in their part to enter more largely into the manufacture of their celebrated proprietary articles. The building will have an iron front to the irrs story, and will be furnished with all the modern improvements. When done it is expected that it will present as fine an appearance as any business house in the city. The whole cost of the house, including the lot on which it is built, will be between forty and fifty thousand dollars. It is expected that it will be ready for occupancy about the lat of June next. ule and retail hardware store of Messrs,

vertises for a local editor, and describes, as below, the kind of a man wanted. It says: "He must be in all respects a gentleman. He must have brains as ell as brass, wit as well as amiability and energy is well as discretion. He must be grave, lively and sentimental; prompt, accurate and reliable; temperate, tolerant and trustworthy. He will ate, tolerant and trustworthy. He will have plenty to do and will be paid for it. He must be courteous as well as cultivated; instructive as well as cultivated; instructive as well as artisticy calm, careful and comprohensive; domonstrative but dispassionate; enterprising, eventful and exact. He must be all things to all men—flexible and artificial; decent or diabolical, as circumstances seem to require. But in the main he should be compassionate, companionable and confiding; original, felicitous and frolty; graceful, gracious and gushing. He must mix in with the boys, and be jovial, juvenile and junnty. He must venerate the 'children of the older growth,' and be grave, dismal and deferential. He must attend the sanctuary with regularity, and be contrile, funereal and devont. He must drop into the theatre betimes, and be volatile, sarcastic and salubrious, &c., &c." We only know of one individual who could "fill that bill." Modesty We only know of one individual could "fill that bill." Modest prevents us from naming him, but when out of a situation he will doubt-less apply for the above. In the mean-time, as foreign appointments seem to be the order of the day just now we will take the refusal of three or four.

RIVER NEWS .- The river was slowly falling yesterday, with five feet and eight inches of water in the channel. Besides the regular trips of the daily packets, the departure at 11 a.m. of the Express, for Parkersburg, and the passage down of the Forest City, are the only items to note of steamboat moveents yesterday.

We visited yesterday the Edinburg, now lying a our wharf. She is just irom our boat-yard, having been there getting some changes made in her cabin, and a thorough overhauling, cleaning up, painting, &c. She has, in addition recently received an entirely new outfit of furniture and other appertenances, and her equipment now is as complete as that of any boat we ever saw. She leaves this evening at 0 o'clock for Cit. clinnati. Capt. Thompson will be found a most excellent officer to travel with.

The Eagle is to-day's packet for Parkersburg, and the Revenue the packet for Cincinnati. The latter will leave at 5 p. m. She is well enough known to need no further announcement from us. As heavy a fog at we ever saw prevailed yesterday, forencon, and the crafts within heating were tooting away right. It rely to the tune of the "three minute whistling law." The sun finally dispelled the fog, and the day turned out a fine one for steambeating.

BIELA'S COMET.—This comet is now from our boat-yard, having been the

Birtha's Compt.—This comet is now visible to the naked eye. It may be seen in the neighborhood of the constellation Pegasus, and close to the bright star Markab, one of the bright well brown luminaries which form the well known square of Pegasus. It's now pursuing a southerly course, and will cross the celestial square about the middle of celestial square about the middle of December. Singularly enough, it then crosses in the old path followed in 1846, and near a point where it was then observed to separate into two conets. It will continue to approach the earth until the end of February, when its distance from us will Le only eighteen millions of miles. At that time, however, it will have advanced far into the southern heavens, and disappears from here and in higher latitudes.

A LARGE LOT OF COPPER.-Messre J. Bodly & Son have now in store at their yard in this city, a large lot of the copper tubings, pipes, boilers, kettles, &c., out of the old East Wheeling distillery, purchased by that firm last August at the Sheriff's sale of the old August at the Sheriff's sale of the old pork factory property. These articles were put into the distillery in 1856, at a cost of about 55 cents per pound. There is over 17,000 pounds of it, and it was of course purchased at a bargain by the present owners.

PROMOTED-We learn by the Steubenville Herald that Capt. O. B. Kerlin, of that city, commissary of subsistence U. S. volunteers, for a long while on duty that city, commissary to the service of the service

the fence in front of the residence of Mr. J. N. Vence, on Main street, near the Spapension Bridge. A panel of the fence was pretty badly broken up, but wa believe the animal escaped without injury. 10 http://makhenens

Monay and was High Passes. Some use say, that, the high prices of things generally, is attributable to the fact that generally, is attributable to the fact that there is too much money in the country. This may all be so, but we have yet to see the first man who was willing to say that he possessed more of the "needful" than he could find use for We confess we find it difficult even to "make both ends meet. We haven't the least idea how a man feels when he has all the money he wants. Locals are never troubled with such feelings.

morning of the proceedings of the Police Court of the day before, we made an error in stating that Mrs. Mary Anni Kyle was fined \$10 and coats, for disorderly conduct. It should have been that she was arraigned on a charge preferred by Mrs. Burrows, but acquitted, the prosecutor having the costs to pay.

No Police Court.-There was no Po-No Police Court.—There was no Po-lice Court yesterday—offenders against the peace and dignity of the city being non cst. We suspect this to be the calm before the storm, and that a perfect rush of cases will soon come on. Step for-ward, gentlemen, those of you who are willing to increase the bank account of the city, and gain for yourself immor-tality in the newspapers.

REMOVAL. The enterprising firm of Messrs. Schultz & Truschell have removed their candy manufactory and confectionery to their new store room a few doors below their old stand, on Market street, near the McLure House. They will always have on hand a full supply of articles in their line. Pur-chasers will be advancing their own interests by patronizing them.

THE WEST VIRGINIA MANUFACTUR NG AND MINING COMPANY.—The stock of this company is, we hear, being rap being erected by Mr. Samuell Ott, of this city, on the east side of Main street, just below Monroe, is going to be a fine structure, a credit to the builder and the city. The building will be known as "Ott's Block," and will be 135 feet deep and 66 feet front. There will be

U. S. Court.-The entire day yester day in the U.S. District Court was con sumed by the session of the grand jury. It will be resumed again this morning. Many cases are up for con-sideration, relating mostly to parties who are charged with defranding the Government in their internal revenue

ment in our columns this morning offering for sale the very desirable late residence of E. H. Fitahugh, situated on Quincy street and now occupied by Capt. Hudson, as provest marshal's office.

NEW WATER PIPE.-A water pipe is t will be ready for occupancy about he ist of June next.

A Model Local.—An exchange adertises for a local editor, and describes, so below, the kind of a manufacture of the control of th

BUSINESS NOTICES.

WANTED.-Two energetic men to sell the Wheeler and Wilson Sewing Ma-chines in Western Virginia. Constant employment will be given. Apply to War, Summer & Co., 99, Main street, Wheeling.

Notice.-Fifty cent currency notes, or red back fifty cent currency, taken at par for school books, stallonary, wall paper, &c., &c., by Joseph Graves, No. 30, Monroe Street. nov143t

TAMPERING WITH THE TEETH IS madss. Avoid the corrosive dentifrices, submit to no scraping, use nothing but Sozodont. Orient herbs are its ingredients. It preserves the enamel. It re-moves all impurities. It strengthens the gums. It deodorizes a tinited breath. It is harmless as water, and more valuable that its weight in gold.

BUCKWHEAT CARES have made their appearance. They never attain their due excellence unless raised with the Excelsior Baking Powder. No one now disputes the superior quality of this most excellent article. To H. Logan & Co., and Logan, List & Co., sole proprietors. Sold by dealers generally.

OYSTERS! OYSTERS! OYSTERS!-Fresh oysters received daily by express, and for sale by the case, can or half can, at Speidel & Inderrieden's, 51 Main street, oc21-im
